  - **GSA five year sustainment contract**
  - **Software maintenance and support**
  - **Time and Materials/Level of Effort**
  - **Years 2-5 sustainment only activities**
  - **Period of performance (POP) January 2001 through December 2005**

Sustainment Contract

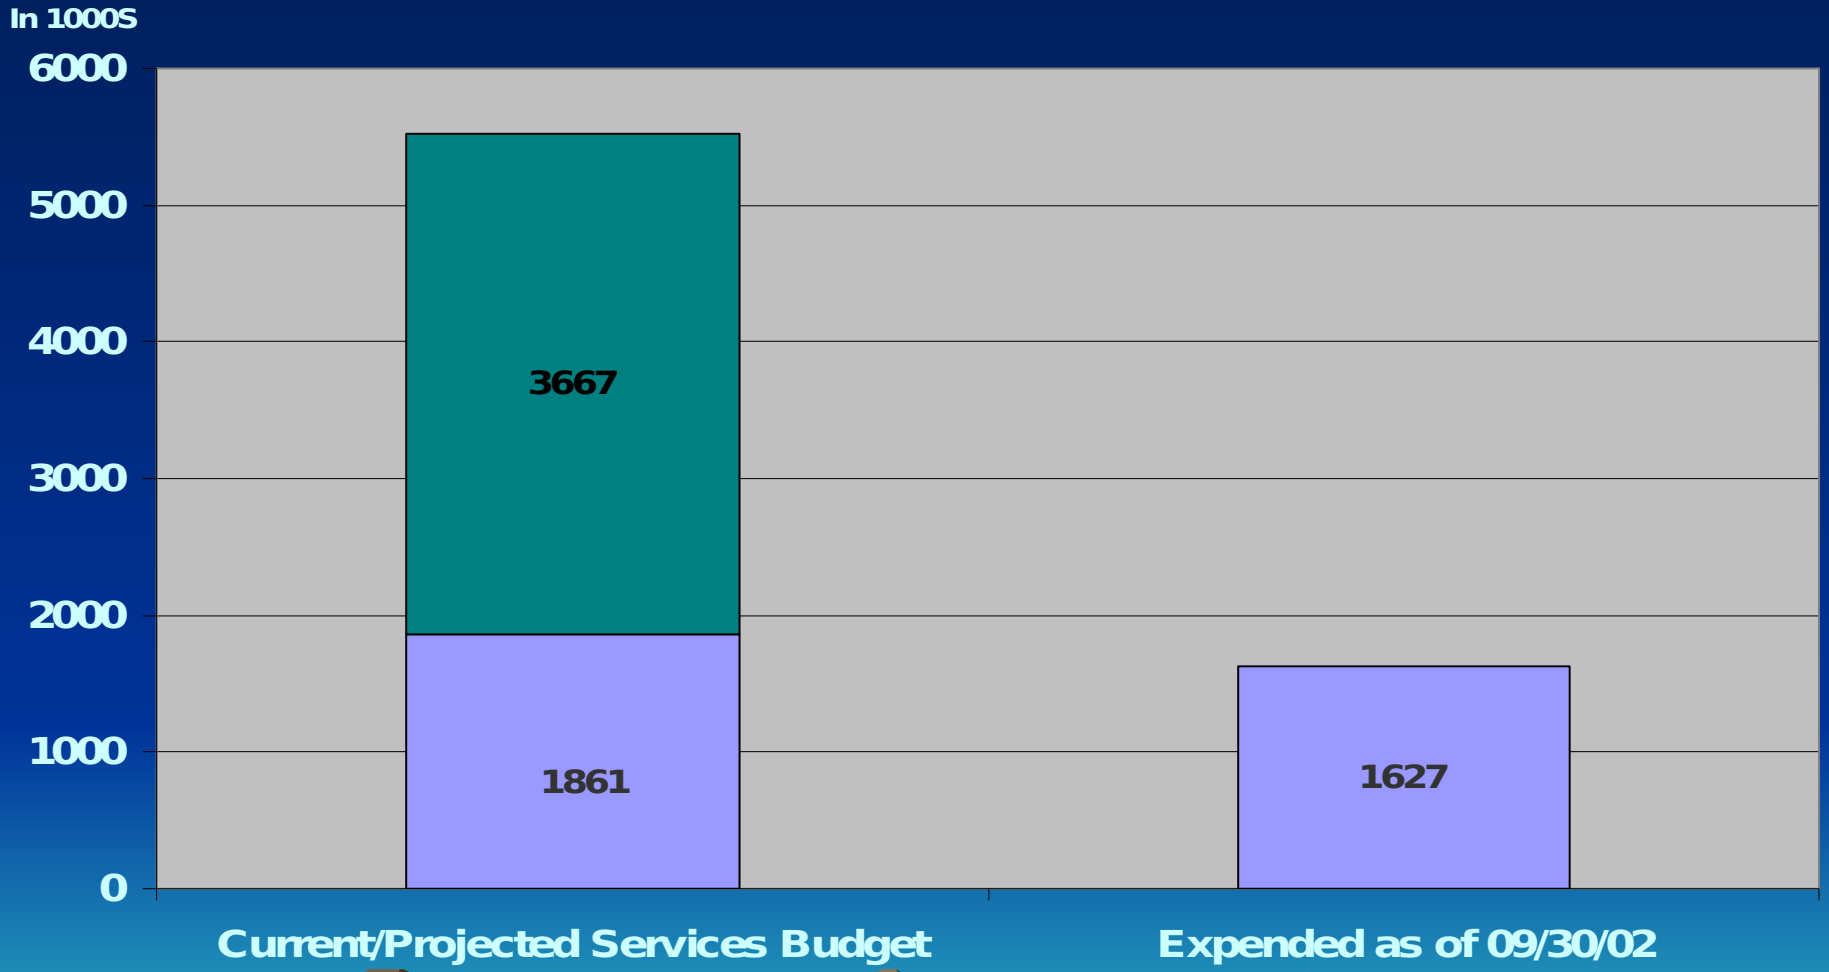
- **Enhancements**
  - **Cost based on level of effort and ODCs**
  - **Enhancements are added as modifications**
  - **Maintenance and enhancement funds have been identified in Services budgets**

Sustainment Contract

- **Current Level of Effort**
  - **Current workload requires sustainment plus enhancement LOE**
  - **Current LOE support does not require funds above the Services budgets**
  - **Budgeted enhancement and sustainment funds are required to maintain the current and projected workloads**

Sustainment Contract

Budget/Expenditure as of September 30, 2002



Future Requirements

- **Server 32/64 Bit H/W and S/W**
  - **Currently operating production and development in 32 Bit environments**
  - **Future supporting software being designed for 64 Bit environment**
    - **HP 11i O/S, Oracle 9i, and CA Advantage Gen 7.0**
  - **64 Bit will help to assure compatibility with future software releases and allow development of more robust functionality**
